Cruising the underwater frontier of the future, there is a new ally in the protection of the oceans; Ensign Darwin of the seaQuest DSV™. In the year 2018, the crew on board the seaQuest DSV™ (Deep Submergence Vehicle) 4600 explore the depths of the world's oceans. Their mission: the protection of the new world peace, and the vast and fragile new frontier of the world's oceans.

A specially trained bottle-nosed dolphin, Ensign Darwin is the liaison to the marine frontiers being populated in this futuristic drama. Able to swim at speeds up to 30 knots, 7 to 12 feet in length, and weighing in at up to 400 pounds, the dolphin is

the sea mammal whose intelligence most resembles that of a human being. Equipped with a Dolphin Rebreathing Unit (D.R.U.), Ensign Darwin can remain outside of his specially designed living spaces in the seaQuest™ for extended periods. With the help of a futuristic computer, Ensign Darwin is able to "speak" in a synthesized human voice to the crew. He also has the ability to communicate telepathically with his trainer and mentor, Captain Nate Bridger. Captain Bridger is the commander and chief creator of the seaQuest DSV™ as well as the ingenious designer that created the elaborate tunnel system that allows Darwin to travel throughout the seaQuest™.

### READ THIS BEFORE YOU BEGIN

- Study the assembly drawings.
- Each plastic part is identified by a number.
- Let paint dry completely before handling parts.
- Check the fit of each piece before cementing into place.
- Do not use too much cement to join parts.
- Use only cement for polystyrene plastic.
- Model may be painted to match photos on box.
- Scrape paint from areas to be cemented.
- For better paint and decal adhesion, wash the plastic parts in a mild detergent solution.

### ALLGEMEINE HINWEISE

- Die Anordnung der Bauteile ist aus den Zeichnungen der Anleitung ersichtlich.
- Jedes Plastikteil ist durch eine Nummer gekennzeichnet.
- Die Teile vor dem Verkleben ungeleimt zusammenhalten, um ihren Passsitz zu prüfen.
- Klebstoff nicht zu dick auftragen.
- Nur Modellbaukleber für Polystyrol verwenden.

- Man kann das Modell nach den Fotos auf der Schachtel anstreichen.
- Bemalte Teile vor der Weiterverwendung gut trocknen lassen.
- Die Farbe muss von allen späteren Klebestellen abgeschabt werden.
- Damit die Farbe und die Abziehbilder besser kleben, sind die Plastikteile in einer milden Seifenlauge zu waschen. Dann abspülen und an der Luft trocknen lassen.

### LEA ESTO ANTES DE EMPEZAR

- Estudie los dibujos de ensamblaje.
- Cada pieza de plástico se identifica por un número.
- Verifique que cada pieza encaje bien antes de pegar en posición.
- No use demasiado pegamento para unir las piezas.
- Use únicamente pegamento para plástico de poliestireno.
- El modelo puede pintarse de acuerdo con las fotografías de la caja.
- Permita que se seque la pintura completamente antes de focar las piezas.
- Raspe la pintura de las superficies que serán pegadas.

- Para una mejor fijación la pintura y de las calcomanías, lavense las piezas plasticase una solución de detergente suave. Enjuáguese y dejense secar al aire.

### LISEZ CE QUI SUIT AVANT DE COMMENCER LE MONTAGE

- Etudier les schémas d'assemblage.
- Chaque pièce plastique porte un numéro d'identification.
- Contrôler que chaque pièce soit bien conforme avant de la coller à sa place.
- N'utilisez pas trop de colle pour réunir les pièces.
- Utilisez uniquement une colle spéciale pour polystyrene.
- Le modèle peut être conformément aux photos sur la boîte.
- Laissez sécher la peinture complètement, avant de manipuler les pièces.
- Grattez la peinture sur les surfaces devant être collées.
- Pour assurer la meilleure adhésion possible de la peinture et des calcomanies, laver les pièces de plastique avec une légère solution savonneuse. Rincer et laisser sécher à l'air.
